### **Frequently Asked Questions:**

**(Q) Is the equipment difficult to operate?**

**(A)** The test system has been designed for easy operation. Test procedure can be mastered in ½ day

**(Q) Do I need to travel to Hydro-Test's facility in Massachusetts to receive training?**

**(A)** As an option we can provide a quotation for on-site training at your facility. Hydro-Test has technicians that travel extensively around the world installing and providing training on our equipment. The training provided at Hydro-Test in Stow, Massachusetts is included in the price of the test system.

**(Q) How Many Cylinders Can I Test in 1 Day?**

**(A)** This is a difficult question to answer as much depends on the operator, type(s) of cylinders, number of operators and more. Typically 1 operator testing portable size cylinders (i.e. 20Lb CO<sub>2</sub>, SCUBA, SCBA ) should be able to test 6 – 8 cylinders per hour (48-64 per day) on a manual operated system. Typically an automated test system will increase the output by 25%

**(Q) Are there any additional cost involved?**
